Here is a super pro ON AIR studio that looks as good as it sounds. There's plenty of room for guests in comfortable chairs around the outside parameter of the new Graham-Studios Radius Curve Designer Furniture. Each guest has a headphone plug in. Most existing stations in the world would be envious of this "state of the art" studio. Channel 10 is a enabled channel that allows for connection of your wired telephone hybrid. This of course is a pre-wired kit that virtually anyone can install. Furniture can be custom sized or scaled to room size at no extra charge. Everything is pre-wired at EBS creating our famous "plug and play" studio system. No broadcast engineers are required to re-assemble this studio.
