This Production Studio was designed to be impressive and functional. This is a "Talents Studio" - designed for the station that needs to have all the tools they need to create and edit impressive announcements, bits and programs. Because you may need multiple talents or guests to record at the same time, we've put a total of five microphones in this room. Since production music or sound effects may be played from CD's, we've included two of them, both remote started by pushing the button on the console!

Most existing stations in the world would be envious of this "state of the art" studio. It all comes as a pre-wired kit that virtually anyone can install. Furniture custom sized or scaled to room size at no extra charge. Everything is pre-wired at EBS creating our famous "plug and play" studio system. No broadcast engineers are required to re-assemble this studio.

PRICED AT \$32,500.00 SHIPPING EXTRA
